Experience

Feb 2020 - present | Brooklyn, NY
Warner Bros. Digital Labs - Software Engineer

Backend lead for DC Universe Infinite transition and ongoing engineering projects. Develop features, bug fixes, and automated tests using Python (also Golang, JavaScript) for a Django application running on the AWS cloud serving DCUniverse.com, Boomerang.com, Ellentube, and Wizarding World, supporting >100K paying customers and millions of requests / day.

Oct 2018 - Sep 2019 | Boston, MA
EditShare - Linux Application Developer

Developed features and bug fixes, mainly using Python, for a Debian Linux based, network-attached video storage application to run on-premise or in the AWS cloud. Built automated integration tests (with Ansible, KVM, Jenkins) and CI/CD routines (e.g. unit tests, type checking) to improve performance at all levels of the stack in a networked environment.

Dec 2017 - Oct 2018 | Remote
Sage Software - Sales Engineer II

Constructed and delivered highly tuned product demonstrations for key business stakeholders using Salesforce managed packages and Visualforce for people operations, coordinating with other SaaS vendors as needed. Managed proof-of-concept development projects such as integrations between Sage solutions. Created a Python-based static site generator to serve as a RFP Knowledge Base.

Jul 2014 - Dec 2017 | Boston, MA
Berklee College of Music - Process & Systems Manager

Created and managed digital software and processes, using automated visualizations and data processing, working with stakeholders across college, using Ellucian Colleague, Informer, JavaScript, Python, and FileMaker Pro, such as integrating registration between merging schools' (Berklee and Boston Conservatory at Berklee) student information systems, batch auditing student schedules, and supporting new programs.

Supervised, developed, and mentored other members of the registrar and registrar operations teams.

Developed and taught sessions at Berklee and at conferences (e.g. NERDUG) on the topics of Excel for Analytics and Simple CRM in Google Apps Script.

Jun 2012 - Jul 2014 | Boston, MA
PeopleFluent - Implementation Consultant

Led customer implementations of compensation, performance, and talent acquisition cloud software, including project management and feature development (in Groovy, SQL).

Education

Jun 2009 - Jul 2011 | Louisville, KY
University of Louisville - M.A.T.: Master of Arts in Teaching

August 2005 - May 2009 | Nashville, TN
Vanderbilt University - B.A.: Double major in Biological Sciences and English
