Software Engineer

Feb 2020 - present | New York, NY
Warner Bros. Digital Labs - Software Engineer

As DC Universe Infinite backend lead, develop and maintain new API features, database schema, third-party integrations, and automated tests working in Python (also Golang, JavaScript) for a Django application running on the AWS cloud serving DC Universe Infinite, Harry Potter's Wizarding World, Boomerang.com, and Ellentube, supporting a large number of paying customers and web requests per day.

Oct 2018 - Sep 2019 | Boston, MA
EditShare - Linux Application Developer

Develop features, bug fixes, and tests mainly in Python for a Debian-Linux-based, distributed media storage appliance deployed on-premise or in the AWS cloud. Build automated integration tests (with Ansible, KVM, Jenkins) and CI/CD routines (e.g. unit tests, type checking) to improve performance at all levels of the stack in a networked environment.

Dec 2017 - Oct 2018 | Remote
Sage Software - Sales Engineer II

Construct and deliver highly tuned product demonstrations for key business stakeholders using Salesforce managed packages and Visualforce for people operations, coordinating with other SaaS vendors as needed. Manage proof-of-concept development projects such as integrations between Sage solutions. Created a Python-based static site generator to serve as a RFP Knowledge Base.

Jul 2014 - Dec 2017 | Boston, MA
Berklee College of Music - Process & Systems Manager

Create and managed digital software and processes, using automated visualizations and data processing, working with stakeholders across college, using Ellucian Colleague, Informer, JavaScript, Python, and FileMaker Pro, such as integrating registration between merging schools' (Berklee and Boston Conservatory at Berklee) student information systems, batch auditing student schedules, and supporting new programs. Supervise and mentor other members of the registrar and registrar operations teams. Developed and taught sessions at Berklee and at conferences (e.g. NERDUG) on the topics of Excel for Analytics and Simple CRM in Google Apps Script.

Jun 2012 - Jul 2014 | Boston, MA
PeopleFluent - Implementation Consultant

Lead customer implementations of compensation, performance, and talent acquisition cloud software, including project management and feature development (in Groovy, SQL).

Education

Jun 2009 - Jul 2011 | Louisville, KY
University of Louisville - M.A.T.: Master of Arts in Teaching

August 2005 - May 2009 | Nashville, TN
Vanderbilt University - B.A.: Double major in Biological Sciences and English
